Professional Experience

Achala IT Solutions

2025-06-04 - Present

Backend Developer

AHS Patient Engagement System – AIG Hospitals:

- Built and optimized backend APIs using FastAPI, GraphQL, and MongoDB for a Patient Engagement System at AIG Hospitals.
- Implemented authentication, appointment scheduling, and doctor availability modules, ensuring secure and scalable backend operations.

Technical Stack : Python, FastAPI, GraphQL (Strawberry), MongoDB, JWT Authentication, Pydantic, AsyncIO, Docker, Git, GitHub, and VSCode.

Key Projects / Involvements

1.AHS Patient Engagement System – AIG Hospitals:

- Built and optimized backend APIs using FastAPI, GraphQL, and MongoDB for a Patient Engagement System at AIG Hospitals.
- Implemented authentication, appointment scheduling, and doctor availability modules, ensuring secure and scalable backend operations.

Technical Stack : Python, FastAPI, GraphQL (Strawberry), MongoDB, JWT Authentication, Pydantic, AsyncIO, Docker, Git, GitHub, and VSCode.

2.IPL Score and Win Probability Prediction :

- Developed a real-time IPL score and win probability prediction system using Random Forest, Linear, Lasso, and Gradient Boosting Regressors with 92% accuracy.
- Built a Flask REST API to serve ML models and designed a frontend dashboard for inputting match conditions.
- Engineered key features (e.g., run rate, overs left, wickets) and applied model evaluation techniques (R^2 , MAE) to optimize performance.

Technical Stack : Python, Flask, Scikit-learn, ML Regressors,Linear Regressor,Ensemble Learning,Random Forest Regressor

Certificates and Awards

- GATE - Data Science and AI - 2025 Qualified:**
Demonstrated proficiency in advanced topics like machine learning, AI, and data science through a nationally recognized competitive exam.
- Data Science and Machine Learning Certification - GeeksforGeeks :**
- Machine Learning,DL,NLP Certification - Udemy:**
- Data Structures and Algorithms through Python Certification - GeeksforGeeks :**
- Python (Basic) Certification - HackerRank :**
- SQL (Basic) Certification - HackerRank :**
- Problem Solving 5★ HackerRank Badge :**
- 5★ SQL Badge :**
- MongoDB Developers Tool Kit:**

About me

✓ GATE 2025 Qualified – Data Science and Artificial Intelligence (DS & AI).

Career Objective

Software Engineer skilled in backend development using FastAPI, GraphQL, and MongoDB. Experienced in building scalable APIs and real-world applications with Python

Technical Skills

Python	
Datastructures and Algorithms through Python	
SQL	
Backend Development	
FastAPI	
GraphQL	
MongoDB	
Machine Learning	

Areas of Expertise

Software Engineering

Backend Development

Tools/Code Quality Tools

VSCode

Jupyter Notebook

Education
